

The CoSector Digital Learning team have partnered with IntelliBoard, the premier SaaS solution for reporting and analytics provider for the Moodle™ LMS and Moodle Premium Integrator.

Users of the Moodle™ LMS now have access to expanded reporting and analytics capabilities, provided by IntelliBoard, to inform their educational business decision-making. IntelliBoard helps to extract the statistical data gathered within the LMS and present it on a single dashboard in the form of printable charts, graphs, and analytics.

Expanded features allow LMS users to validate eLearning efforts through user-friendly, on-demand, real-time insight and improve workflows.

Why choose IntelliBoard?

Greater flexibility and customisation

IntelliBoard users have the ability to customise views based upon admin-defined organisational roles within their respective institutions, e.g. manager, supervisor, division chair. Options are limitless.

AI assisted search

LISA, Learning Intelligence Search Automation, allows users to type queries using natural language. LISA returns instant results, and goes further by identifying existing reports that may help to inform the user's search for data.

Conditional event notifications

CEND, Conditional Event Notifications Dashboard, creates customised notifications based upon conditional events, such as "learner spent less than [x] time in courses," "learner site inactivity," or "learner grade below class average."

Key Benefits

REPORTING

More than 120+ reports and analytics to slice and dice your data the way you need to see it.

AI ASSISTED

Support from real people, people with backgrounds in higher education, training, and performance improvement.

DASHBOARD

Navigate quickly to the focus areas important to your organisation: completion, retention, traffic, revenue, and many more.

ASSESSMENT

IntelliBoard has tools to identify rigor, trends, and statistical data to inform the assessment process.

IDENTIFY

Learner retention is a key focus for many organisations. IntelliBoard provides data from several points of focus to identify learners in jeopardy.

FLEXIBLE

Flexibility to configure multiple roles and permissions to fit managers, department chairs and employers.

Advanced reporting for Moodle LMS

AN INTELLIGENT DASHBOARD

Unlock the power of your data through the IntelliBoard dashboard. Navigate quickly to the focus areas important to your organisation: completion, retention, traffic, revenue, and many more.

TRACK AND IMPROVE USER ENGAGEMENT

The online learning environment requires an engaged learner to be successful. IntelliBoard provides multiple reports, analytics and notifications that keep your learners focused, and provide data that can impact your learning methodologies.

IDENTIFY AT-RISK LEARNERS

Learner retention is a key focus for many of the organisations we serve. We provide data from several points of focus to provide a clear picture of learners in jeopardy.

ENABLE LEARNER SELF-MANAGEMENT

IntelliBoard provides your organisation's learners with a personal dashboard of their grades and activity directly within the LMS.

CREATE BETTER ASSESSMENTS

Learner assessment is a critical function for any learning organisation. Whether your assessments are tied to objectives, certification, etc, they need to demonstrate learner mastery. IntelliBoard has tools to identify rigor, trends, and statistical data to inform the assessment process.

TRACK INSTRUCTOR ENGAGEMENT

The online learning environment requires an engaged learner to be successful. IntelliBoard provides multiple reports, analytics and notifications that keep your learners focused, and provide data that can impact your learning methodologies.

INFORM EVERY AREA OF THE EDUCATIONAL PROCESS

IntelliBoard has so many other reports, analytics and tools to make your LMS smarter, and the list grows every day.

"We started providing reporting and analytics to the University of London in 2019, and we are thrilled to be able to introduce the reports, monitors, dashboards, and every other beautiful piece of data to everyone throughout the system." She continued, "IntelliBoard allows real-time data to influence the learning of students, and contributes to the educational process".
